

COACHING CENTER MANAGEMENT SYSTEM

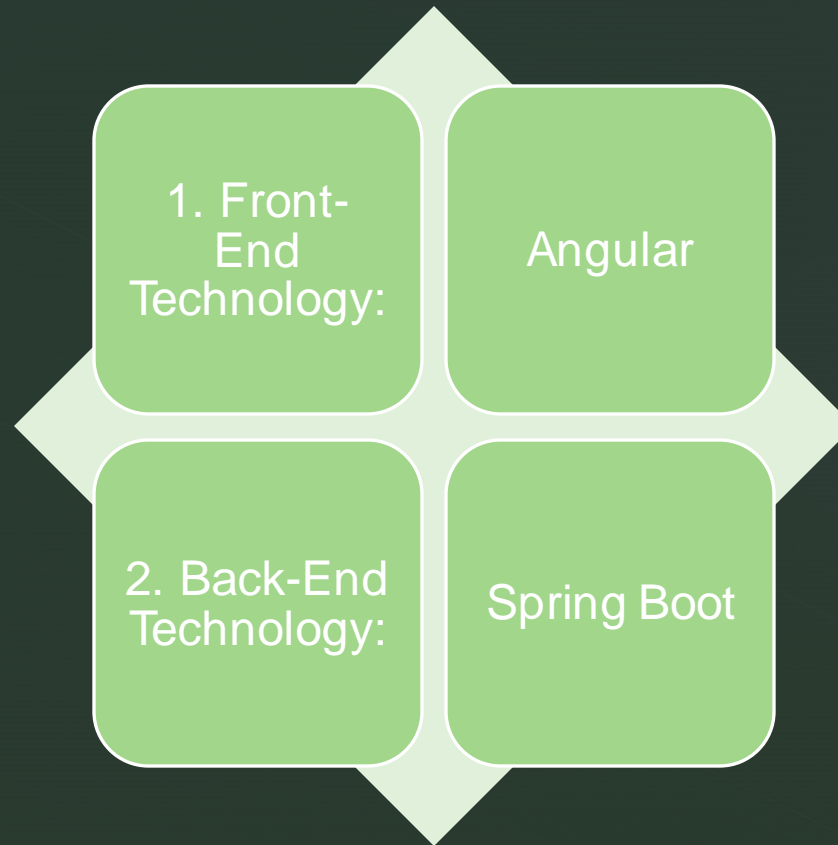

- Group No: 66
 - Piyush Ahir_1113
 - Tejas Shete _1192
- 

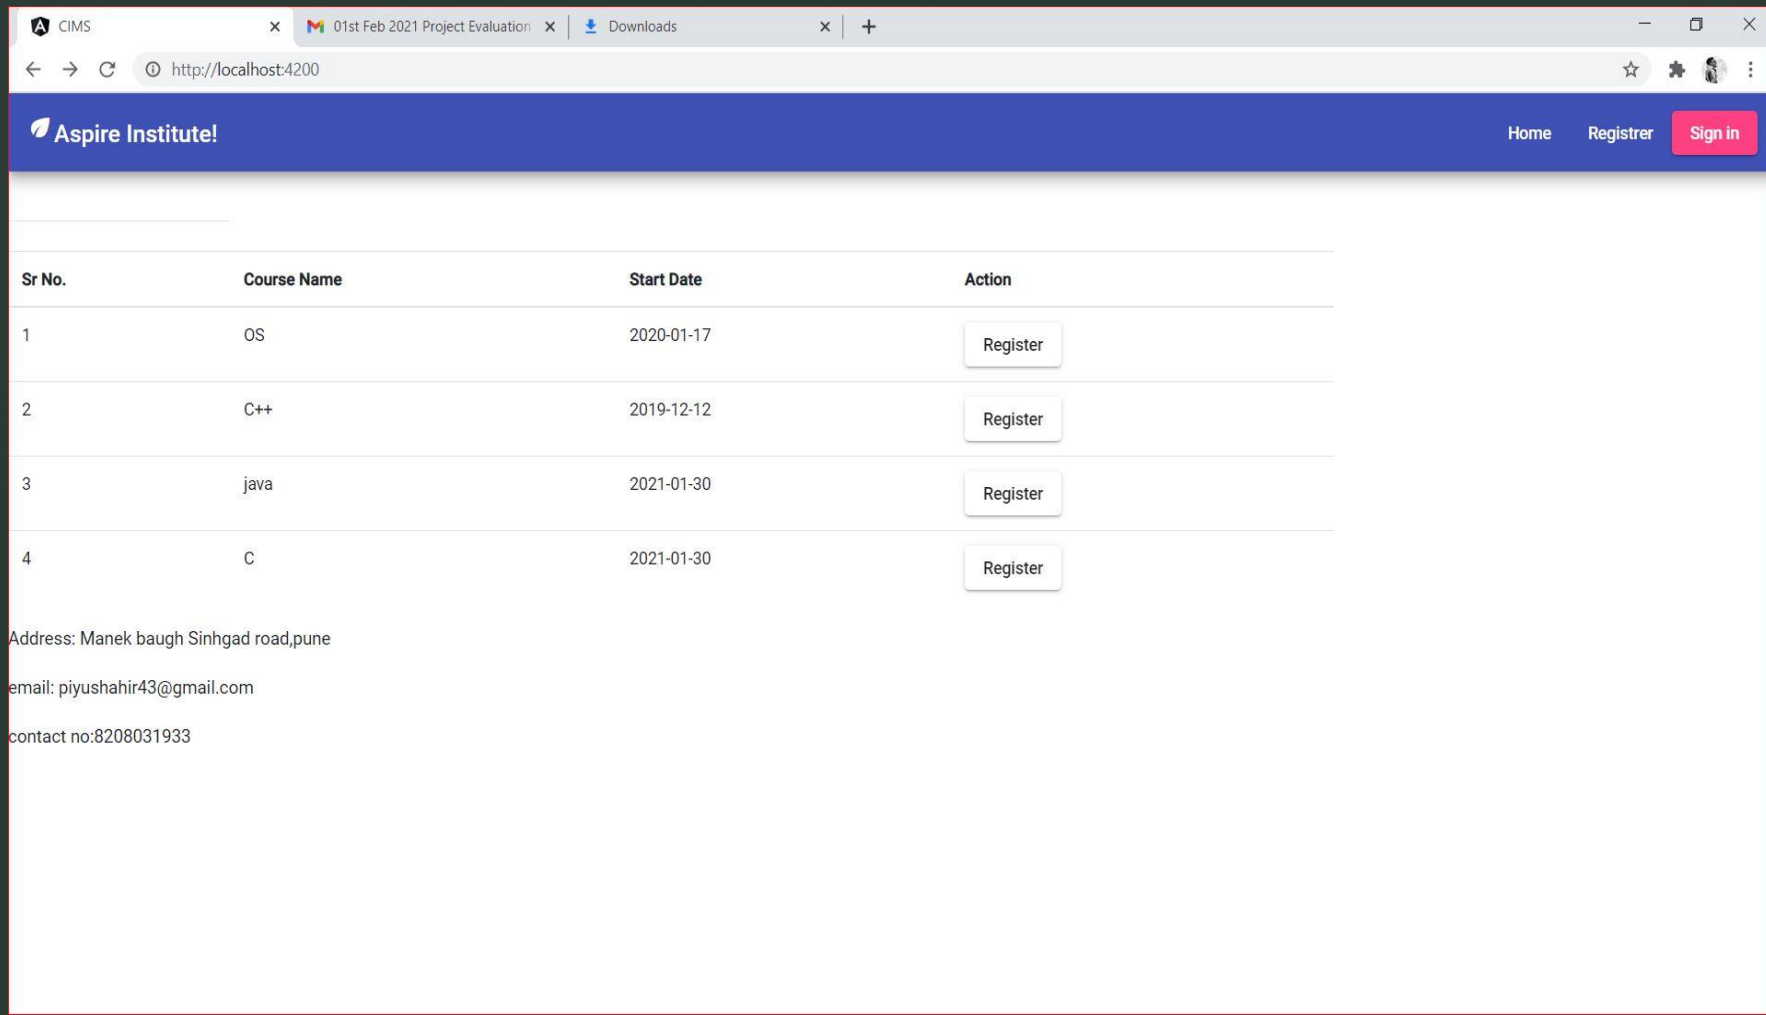

Abstract

- Coaching Center Management is a project for the managing the coaching center efficiently and effectively along with all the details of the student.

Technology Used

Home page

The screenshot shows a web browser window with the URL `http://localhost:4200`. The page features a blue header with the "Aspire Institute!" logo on the left and navigation links for "Home", "Registrer", and a red "Sign in" button on the right. Below the header, there is a table with four columns: "Sr No.", "Course Name", "Start Date", and "Action". The table lists four courses: OS, C++, java, and C, each with a "Register" button in the "Action" column. At the bottom of the page, contact information is provided, including the address, email, and contact number.

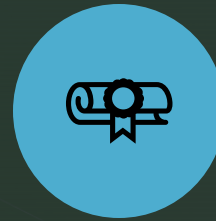

Sr No.	Course Name	Start Date	Action
1	OS	2020-01-17	<button>Register</button>
2	C++	2019-12-12	<button>Register</button>
3	java	2021-01-30	<button>Register</button>
4	C	2021-01-30	<button>Register</button>

Actors

1. Admin

2. Student

Admin Functionalities

1. Admin can Login to the Management system.

2. Admin can Add , Update , Delete courses.

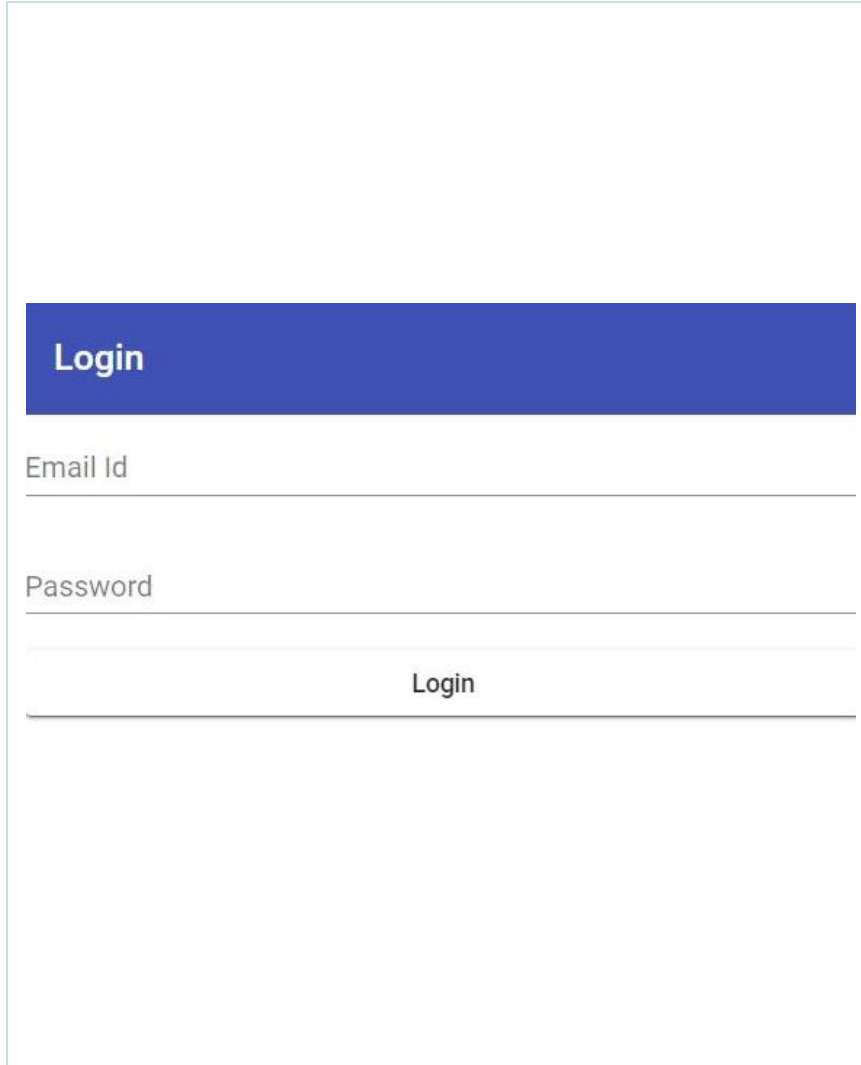

3. Admin can Add , Update , Delete Student.

4. Admin can view all feedbacks.

Admin Login

A screenshot of a web form titled "Admin Login". The form is contained within a white rectangular box with a thin blue border. At the top of the form is a blue rectangular button with the word "Login" in white text. Below the button are three input fields. The first field is labeled "Email Id" and has a light blue border. The second field is labeled "Password" and also has a light blue border. The third field is a wider input field with the word "Login" centered inside it, and it has a light blue border. The entire form is set against a dark gray background.

- We have same login page for Student And Admin.
- AS per the validation they will routed to their module.

Admin Dashboard

 [Aspire Institute!](#) [Courses-Faculty](#) [Student](#) [Feedback](#)

1. Admin can design courses along with faculty.(All course-faculty CRUD operations)
2. Manage students .(All students CRUD operations)
3. And see all the feedback provided by students

Future scope

Conclusion

This system is useful for all the coaching institute admin at various levels.

It was very challenging experience for me to work with this project.

This project proved very good for us as it provide practical knowledge of technologies like Angular,J2EE and MySQL database,but also handling procedure with Advance and new technology.

Thank You
